

Temporary Staffing Firms have long had to bear the burden of being branded “UNDESIRABLE” by the traditional insurance marketplace. This bias has translated into too few competitors offering Worker’s Compensation Insurance allowing premiums to escalate without a mechanism for Safety Minded Firms to escape.

***Tired of Paying Your
Competitor’s Worker’s
Compensation Claims?***

**The Temporary Staffing
Industry’s Source For
Creative Solutions**

 **ARE YOU PAYING TOO MUCH
IN WORKER'S COMPENSATION
INSURANCE?**

There are only two types of **TEMPORARY STAFFING** firms: *those* that drive worker's compensation claims and premiums higher, and *those* that pay too much in premium to supplement those that drive costs higher. **Which are you?**

If your Temporary Staffing company is committed to safety, with a better than average loss history, then you are most likely paying far too much in worker's compensation premium to make up for those that are not.

 **THE DOUBLE DIP**

In the Traditional Insurance market, you are penalized for being a Temporary Staffing Firm through lack of competitors vying for your premium dollar. As if this were not bad enough, the premium dollars you are paying, are being utilized to pay claims of less Safe Minded companies, with no chance of the return of any of your money; just the likelihood of higher premiums year after year.

Let Trinity Risk Management provide you with a **no-cost, no-obligation** analysis of your current worker's compensation program, and show you how much of your premium dollar subsidizes your competitors, and how to keep it on **your** bottom line.

 **WHY SHOULD YOU CONSIDER
A CAPTIVE?**

 ***LOWER COSTS***
